

**SR-1105**

# INDOOR CO ALARM

## DESCRIPTION:

Carbon monoxide poisoning is a serious matter and the risk of its leakage affects many houses and apartments. Therefore, constant monitoring of CO presence in the air is very important. The Lanberg SR-1105 alarm is a device that not only monitors its level, but also warns about its dangerous concentration. Good quality sensor, simple operation and elegant design, these are the main advantages of the product.

## PRODUCT SPECIFICATION:

- Sensor type: electrochemical
- Dimensions:
  - diameter: 90 mm
  - height: 35 mm
- Battery lifetime: 10 years
- Battery type: 3 V NON-REPLACEABLE
- CO display range: 0-499 ppm (+/- 10%)
- Built-in thermometer
- Pause function
- CO density alarm time:
  - 50 ppm: 60-90 min
  - 100 ppm: 10-40 min
  - 300 ppm: < 3 min
